

The Life of Ismail Mohammadi is in Danger

According to the latest news received, in the past few days, Ismail Mohammadi has been sentenced to death. Ismail Mohammadi was born in 1965 in the city of Bukan where he resided all his life. He was arrested in August of 2002 and has been sentenced to death through the ruling of the courts of the Islamic Republic of Iran in the city of Orumie. He was informed of his sentence.

In the last year alone, on a number of occasions, we have informed the public of the political executions carried out by the Islamic Republic of Iran in order to create fear and to silence the cries of opposition. A number of freedom fighters have been sentenced and executed in the last year. This time, the Islamic regime of Iran is planning on continuing their inhuman and tyrannical politics through the execution of Ismail Mohammadi.

We condemn the execution sentence of Ismail Mohammadi and hereby ask all humanitarian organizations, media and all freedom lovers of the world to help avert Ismail's death sentence and to save his life. Use any means necessary to inform international organizations and media and put pressure on the regime of Iran to prevent this crime. Ismail Mohammadi is the most recent political victim in Kurdistan of Iran but he most certainly will not be the last. Islamic Republic of Iran must be prevented from carrying out further crimes.
